Field Work/Project : Syllabus - Geography

DEPARTMENT: GEOGRAPHY

SEMESTER: FIFTH

B.Sc. HONOURS

Teacher	Course Title	Units	Contents	Commencement Date	Classes required
Dr. Ina Dhar Roy Dasgupta	C11T	UNIT-I Research Methodology	1. Research in Geography: Meaning, types and significance	14 Sep 2021	02
			2. Literature review and formulation of research design		02
			3. Defining research problem, objectives and hypothesis. Research materials and methods		04
			4. Techniques of writing scientific reports: Preparing notes, references, bibliography, abstract and keywords		02
Dr. Ina Dhar Roy Dasgupta	C11T	UNIT –II Fieldwork	1. Fieldwork in Geographical studies – Role and significance. Selection of study area and objectives. Pre-field preparations. Ethics of fieldwork	14 Sep 2021	04
			2. Field techniques and tools: Observation (participant, non-participant), questionnaires (open, closed, structured, non-structured). Interview with special reverence to focused group discussions		04
			3. Field techniques and tools: Landscape survey using transects and quadrants, constructing a sketch, photo and video recording		04
			4. Positioning and collection of samples. Preparation of inventory from field data.		04
			Post-field tasks		
Dr. Ina Dhar Roy Dasgupta/Na bendu Sekhar Kar	C11P	Research Methodology and Field Work Lab	1. Each student will prepare an individual report based on primary data collected from field survey and secondary data collected from different sources for either a rural area (mouza) or an urban area (municipal	14 Sep 2021 (Pre-field, Syn-Field, Post-Field)	20 [Excluding days of field work]

Principal

Field Work/Project :Syllabus - Geology

1. Study of fossils with various modes of preservation
2. Study of systematic position, stratigraphic position and age of various invertebrate, vertebrate and plant fossils
3. Study of functional morphological characters of different groups (Bivalvia, Gastropods, Brachiopoda, Echinodermata, Ammonoidea, Gondwana flora, vertebrates)
4. Identification of feeding habits from vertebrate (horse, elephants, Sus) teeth
5. Hard part morphology and identification of common Brachiopoda, Anthozoa, Trilobita, Echinoidea, Gastropoda. Identification of Gondwana flora

Skill Enhancement Course (SEC)

SEC-1: Field Geology I- Basic Field Training

Credits 02

Unit 1

Topographic sheet: Methods of naming. Features scale. Map reading.

Unit 2

1. Use of topographic sheets in field. Marking location in topographic sheet using physical features and bearing.
2. Use of GPS in field.
3. Distance, height and pace approximation in field.

Unit 3

1. Identification of rock types.
2. Identification of sedimentary and tectonic structures in field.

Unit 4

1. Clinometer and Brunton compass: Use of the instruments in measuring geological data in field. Techniques of measurement of orientation data in field.
2. Litholog measurement

Unit 5

1. Recording field data in maps and notebooks.
2. Report writing.

OR

SEC-1: Field Geology II-Geological Mapping and Structural Geology
Field

Credits 02

Unit 1

Preparation of a geological map of a small area with homoclinal or gently folded beds.

Unit 2

Stereographic plots of orientation data and their interpretation.

Field Work/Project : Syllabus - ENVS

Vidyasagar University

Ability Enhancement Compulsory Course (AECC - Environmental Studies)

Environmental Studies

Credits: 4

Unit 1: Introduction to environmental studies

- Multidisciplinary nature of environmental studies;
- Scope and importance; Concept of sustainability and sustainable development. (2 lectures)

Unit 2: Ecosystems

- What is an ecosystem? Structure and function of ecosystem; Energy flow in an ecosystem: food chains, food webs and ecological succession. Case studies of the following ecosystems:
a) Forest ecosystem
b) Grassland ecosystem
c) Desert ecosystem
d) Aquatic ecosystems (ponds, streams, lakes, rivers, oceans, estuaries) (6 lectures)

Unit 3: Natural Resources: Renewable and Non-renewable Resources

- Land resources and land use change; Land degradation, soil erosion and desertification.
- Deforestation: Causes and impacts due to mining, dam building on environment, forests, biodiversity and tribal populations. Joint forest management.
- Water: Use and over-exploitation of surface and ground water, floods, droughts, conflicts over water (international & inter-state).
- Energy resources: Renewable and non renewable energy sources, use of alternate energy sources, growing energy needs, case studies. (8 lectures)

Unit 4: Biodiversity and Conservation

- Levels of biological diversity: genetic, species and ecosystem diversity; Bio-geographic zones of India; Biodiversity patterns and global biodiversity hot spots
- India as a mega-biodiversity nation; Endangered and endemic species of India
- Threats to biodiversity: Habitat loss, poaching of wildlife, man-wildlife conflicts, biological invasions; Conservation of biodiversity: In-situ and Ex-situ conservation of biodiversity.
- Ecosystem and biodiversity services: Ecological, economic, social, ethical, aesthetic and Informational value. (8 lectures)

Unit 5: Environmental Pollution

- Environmental pollution: types, causes, effects and controls; Air, water, soil and noise pollution
- Nuclear hazards and human health risks
- Solid waste management: Control measures of urban and industrial waste.
- Pollution case studies. (8 lectures)

Unit 6: Environmental Policies & Practices

- Climate change, global warming, ozone layer depletion, acid rain and impacts on human communities and agriculture
- Environment Laws: Environment Protection Act; Air (Prevention & Control of Pollution) Act; Water (Prevention and control of Pollution) Act; Wildlife Protection Act; Forest Conservation Act. International agreements: Montreal and Kyoto protocols and Convention on Biological Diversity (CBD).
- Nature reserves, tribal populations and rights, and human wildlife conflicts in Indian context.
- Environmental policy and gender issues. (7 lectures)

Unit 7: Human Communities and the Environment

- Human population growth: Impacts on environment, human health and welfare.
- Resettlement and rehabilitation of project affected persons; case studies.
- Disaster management: floods, earthquake, cyclones and landslides.
- Environmental movements: Chipko, Silent valley, Bishnois of Rajasthan.
- Environmental ethics: Role of Indian and other religions and cultures in environmental conservation.
- Environmental communication and public awareness, case studies (e.g., CNG vehicles in Delhi). (6 lectures)

Unit 8: Field work

- Visit to an area to document environmental assets: river/ forest/ flora/fauna, etc.
- Visit to a local polluted site--Urban/Rural/Industrial/Agricultural.
- Study of common plants, insects, birds and basic principles of identification.
- Study of simple ecosystems--pond, river, Delhi Ridge, etc.
- Disaster management.
- Coastal ecosystem. (Equal to 5 lectures)

GEOGRAPHY FIELD REPORT
2022-23

Introduction: Geography is a spatial science. It aims to interpret the complex relationship between man and his environment in a specific spatial setting of a region or a place. Field work provides the opportunity to the students to acquire geographical knowledge and skills practically in the 'real world' setting. The field is a major source of primary geographical information and data including landforms, climate, vegetation, population distribution and socio-economic activities. It helps in understanding the unique characteristics, challenges and opportunities of an area, which is essential for effective developmental planning.

Curriculum: U.G. B.Sc. 5th Semester Geography CBCS Honours (Paper C11P- Research Methodology and Field Work) under Vidyasagar University

Title of the Report: 'Physico-Cultural Spectrum of Upper Ladam Village, Rishop, West Bengal'

Place Visited: Upper Ladam Village, Rishop, Darjeeling District, West Bengal

Field Duration: 21-11-22 to 27-11-22 (incl. journey)

No. of Student Participant: 36 (Thirty Six)

Supervisor: Nabendu Sekhar Kar, Assistant Professor of Geography

Objectives:

- To identify the nature of man-environment relationship in and around hill resort Rishop and the problems and prospects related to tourism.
- To find out the problems of the villagers and their perception on socio-economic amenities and services available.

Findings:

Before becoming a hill resort Rishop was an inaccessible hilltop located in the heart of the upper Neora Valley forest reserve. In 1998 roads were built following a policy decision and the forest department granted land to establish homestays under an ecotourism venture. Later with the introduction of electricity in 2001, this area prospered as a hill resort with a panoramic view of mighty Kanchenjunga. The homestays and hotels here are served by the villagers of Upper Ladam Village located downhill which is the main source of living. In this work several problems are identified like acute shortage of potable water, unavailability of higher education institute, complete absence of any health facilities not even a single drug store, distant market, only one motorable road which is often compromised by the monsoons, low income and higher dropout rate of girls etc. Apart from this a recent increase in number of homestays is a major concern increasing environmental pollution and affecting the serenity of the area. Regulations may be adhered to reduce the numbers of brick and mortar structures and to protect the charm of the area. Communication, health and education –these three sectors require improvement.

Department of Geology
Field Report
Academic Session 2022-23**

Area of field work: Angul, Orissa

Duration: 25.02.2023-02.03.23

No. of participation: 7

A compulsory field tour was conducted for the fulfilment of Skill enhancement course (SEC) paper (3rd and 4th Semester under CBCS system) of B.Sc (Hons) syllabus of Geology Honours of Vidyasagar University at Angul, Orissa.

Purpose of Field work:

- Learn the use of clinometer compass to measure attitude of various primary and secondary structures present within the rocks.
- Learn the use of toposheet to locate and to search exposure.
- Learn the use of clinometer to take bearing.
- Identify the igneous and metamorphic rocks in field.
- Identify the primary and secondary foliation
- Recognise the deformational features and shear sense indicator at Barakera area.
- Identify and mapping of superposed folding at Ogi village.
- Mapping of litho-contacts in 1:200 scale and prepare the geological map of this area.

Acknowledgement
We express our gratitude to the Dept. of Geology, Shahid Matangini Hazra Govt. College for Women for bestowing us the opportunity to undertake the geological field work in and around Bero-Santuri sector in Purulia, West Bengal.
We are indebted Prof. Aparupa Banerjee and Prof. Lovely Barman of our college and Dr. Proloy Ganguly for their valuable guidance, care, and encouragement at every step of the entire course of our field work.
They taught us, cajoled us, scolded us, when we made mistakes, but they always stuck to their guns and never got tired of our endless questions. They taught us to survive through a tough fieldwork and made us realize our own potential and for this, we shall be extremely thankful to them.

CHAPTER 1
INTRODUCTION:
Geological Sciences is extended enough, not to be solely confined inside the classroom. The whole spectrum of this science can be easily understood if field works are mingled up with the class room studies.
We, the students of 3rd semester, had undertaken a fieldwork in and around Raghunathpur-Bero-Santuri sector of Purulia district. It is an excellent region with different Structural features. The field work carried out for 8 days duration from 26th December to 3rd January, 2019.
1.1 LOCATION & ACCESSIBILITY:
Raghunathpur is a city and a municipality in Purulia district in the state of West Bengal, India. It is the headquarters of the Raghunathpur subdivision. Industrial City Raghunathpur is located near Adra on the North-East part of Purulia district. It is connected with other cities through five main road's, which are Purulia - Barakar road, Raghunathpur-Adra-Hura road, Raghunathpur-Chas road, Cheliyama road and Raghunathpur-Bankura road. The nearest main junction station is Adra Junction railway station.
Raghunathpur is located at 23.55°N 86.67°E. It has an average elevation of 155 m (509 ft). The area forms the lowest step of the Chota Nagpur Plateau. The general scenario is undulating land with scattered hills.
1.2 CLIMATE AND VEGETATION:
Longitudinally the area falls under tropical climate zone. In general the climate of the area is arid. The winter temperature

ENVS Project Report 2022-23

Introduction

Environmental Studies is important for understanding how we should live and develop sustainable strategies to protect our environment. This field educates individuals about the living and physical surroundings and provides insights to resolve complex environmental issues that affect our daily lives. In light of the current environmental challenges, creating a model for a clean and healthy environment is a paramount concern for future generations.

Affiliation and Curriculum

Affiliated with Vidyasagar University, Shahid Matangini Hazra Government General Degree College For Women follows a structured curriculum for Environmental Studies (ENVS). This includes both theoretical classes and practical project work.

Mandatory Course Requirement

All newly enrolled students from every department of the undergraduate courses must study Environmental Studies. Besides theoretical evaluations, students undertake project work on relevant topics and prepare individual study reports to meet curriculum requirements. Teachers guide them through the formalities of conducting research in their chosen focus area.

Project Topics

Some contemporary and vital topics covered include:

- **Environmental assets:** River/ Forest/ Flora/Fauna, etc.
- **Visit to a local polluted site---**Urban/Rural/Industrial/Agricultural.
- **Study of common plants, insects, birds and basic principles of identification.**
- **Study of simple ecosystems---**Pond, River, Delhi Ridge, etc.
- **Disaster management.**
- **Coastal ecosystem.**

ENVS Project 2022-2023

- **Number of students participated: 309**
- **Places visited:**
 - Polanda, Purba Medinipur
 - Tamluk, Purba Medinipur
 - Srirampur, Purba Medinipur
 - Chapda, Purba Medinipur
 - Gojina, Purba Medinipur
 - Nakibasan, Purba Medinipur

Topics: Water Pollution, Noise Pollution, Sound Pollution, Air Pollution, Soil Pollution.
