Parent-teacher meetings are an essential component of a student's education and that provide opportunity for parents/guardians and teachers to discuss the students' academic progress, social development, and overall performance in college. Once the post covid normalcy will be fully restored, parents and teachers' interactions will be arranged to share specific guidelines about usage of ICT enable handheld devices/smart phones that students need to adhere back home.

Proper arrangement has been made for informed assistance regarding scholarship so students can avail of all such financial assistance from respective authorities. Furthermore, the inputs collected were taken into consideration to improve the overall learning experience for students introducing more ICT based tools for teaching and learning. Restoration of services and routine maintenance including toilets will be taken-up once off-line classes will be resumed.
